Streamline Your Space With ExamGlide

Our ExamGlide design is adaptable for a multitude of applications including patient rooms, exam rooms, and those difficult spaces without room for a swing door.

**Work with
people
you can trust.**

Walters & Wolf Interiors has been creating and perfecting its interior design products for over 45 years. Our team not only manufactures our products, we have a local installation team, project management team, inspection team, and product specialists on standby to help facilitate every project from start to finish. We care deeply about the functionality of our products because we install them.

Tested & Perfected

A Product created by Builders

Space Saving

ExamGlide sliding technology creates a seamless and spacious solution for every workplace environment.

Hidden Floor Guide

No floor track for potential tripping injuries to occur.

Soundproofing

Tested and approved for an STC rating of up to 41. We are constantly experimenting and formulating new designs to gain higher STC ratings in the future.

Card Reader Capabilities

A variety of electrified hardware implementations available.

Securable

Secure your spaces with electrified locks, mortise locks, and more.

Customizable

The doors you order are crafted & tested by our team of experts. We are builders, constantly improving and developing our products to fit your needs.

Door Options

Wood/ Wood Veneer

Our team has expert level experience installing a multitude of wood door types. Consult us to find the wood that best suits your facility's needs.

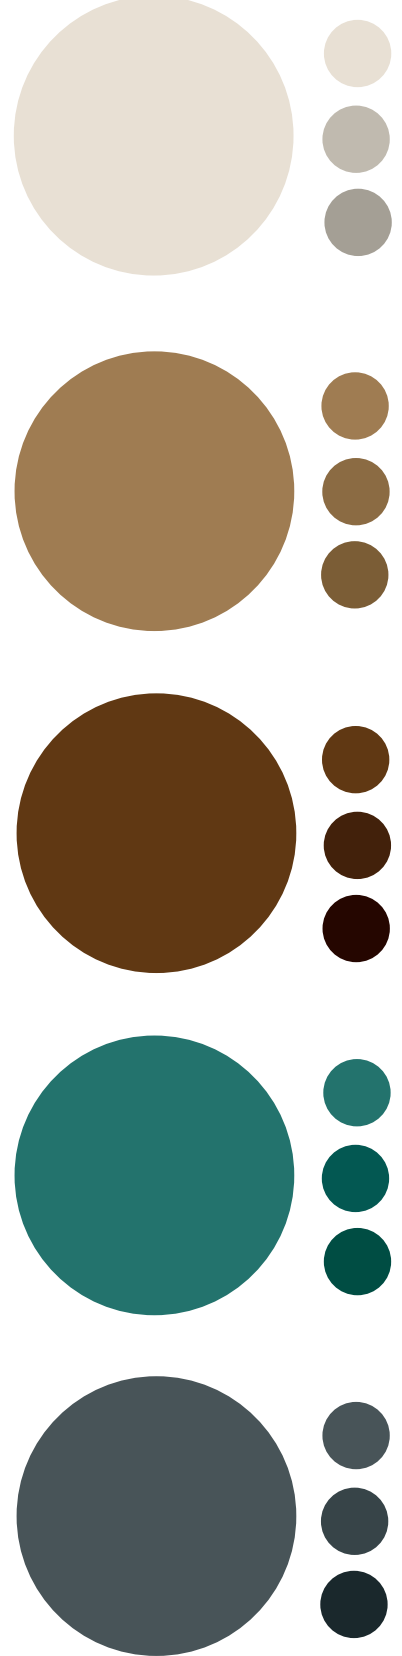

Aluminum

Doors made with lightweight bacteria resistant aluminum.

Painted Finishes

Consult with us to find the perfect match on your interior doors.

Soundproofing Capabilities

Accessibility Compliance

SL9100 ADA Self-Latching Sliding/Pocket

- Single action egress for unlocking & sliding open door in one motion.
- Latch projects & functions like an edge pull when the door hits the frame.
- Self latching, whether latch is projected or retracted.
- The latch bolt held back & released push of a button or sliding closed against the jamb.
- Deadbolt available for locking + extra security.

For use with Accurate's SLFT flush pulls (for true pocket door applications) or Accurate's levers. The lock easily installed with other manufacturers' sectional levers (can be installed vertically).

- 2 1/2" or 2 3/4" backset standard, other backsets available as a special order.
- Available with 1" front (for 1 3/8" thick doors, specifically SL9100xx).

Hardware
