# Maximize Your Space With VersaGlide

Our VersaGlide design is adaptable for a multitude of applications including exam rooms, office spaces, conference rooms, and those difficult spaces without room for a swing door.

## Work with people you can trust.

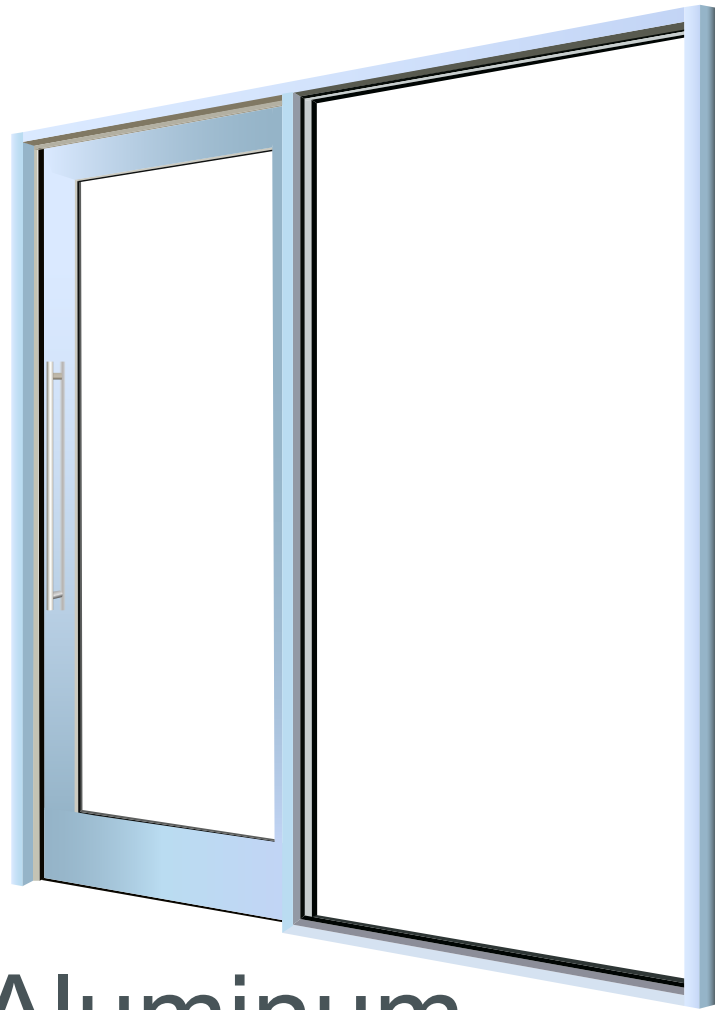

Walters & Wolf Interiors has been creating and perfecting its interior design products for over 45 years.

We not only manufacture our products, but we also have a dedicated team of local installers, project managers, quality control experts, and product specialists working together to ensure every project has quality built in from start to finish.

# Door Options

## Aluminum

Full lite aluminum doors available in wide, medium, and narrow stile configurations

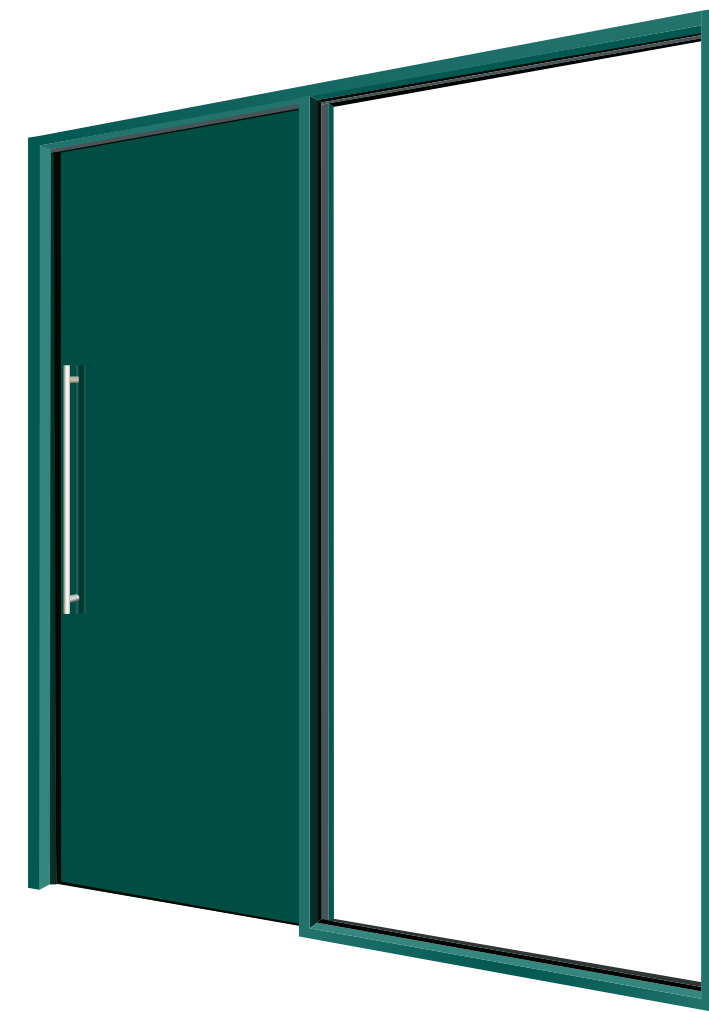

## Full Lite

Full lite glass available in 1/4" thickness up to 9/16"

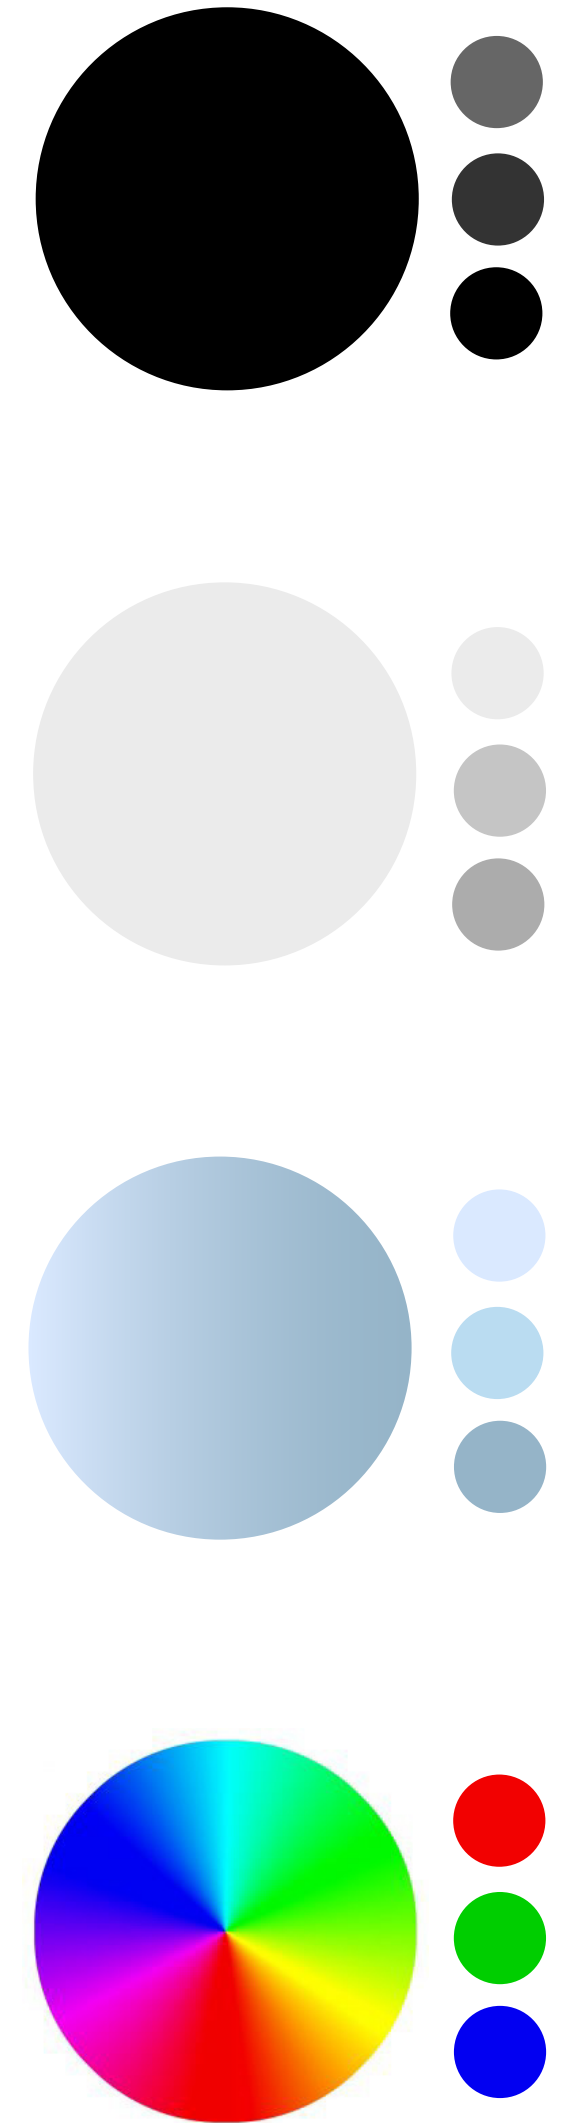

## Wood/ Wood Veneer

Our team has expert level experience installing multitudes of wood door types. Consult us to discover the ideal wood veneer that complements the requirements of your facility.

## Painted Finishes

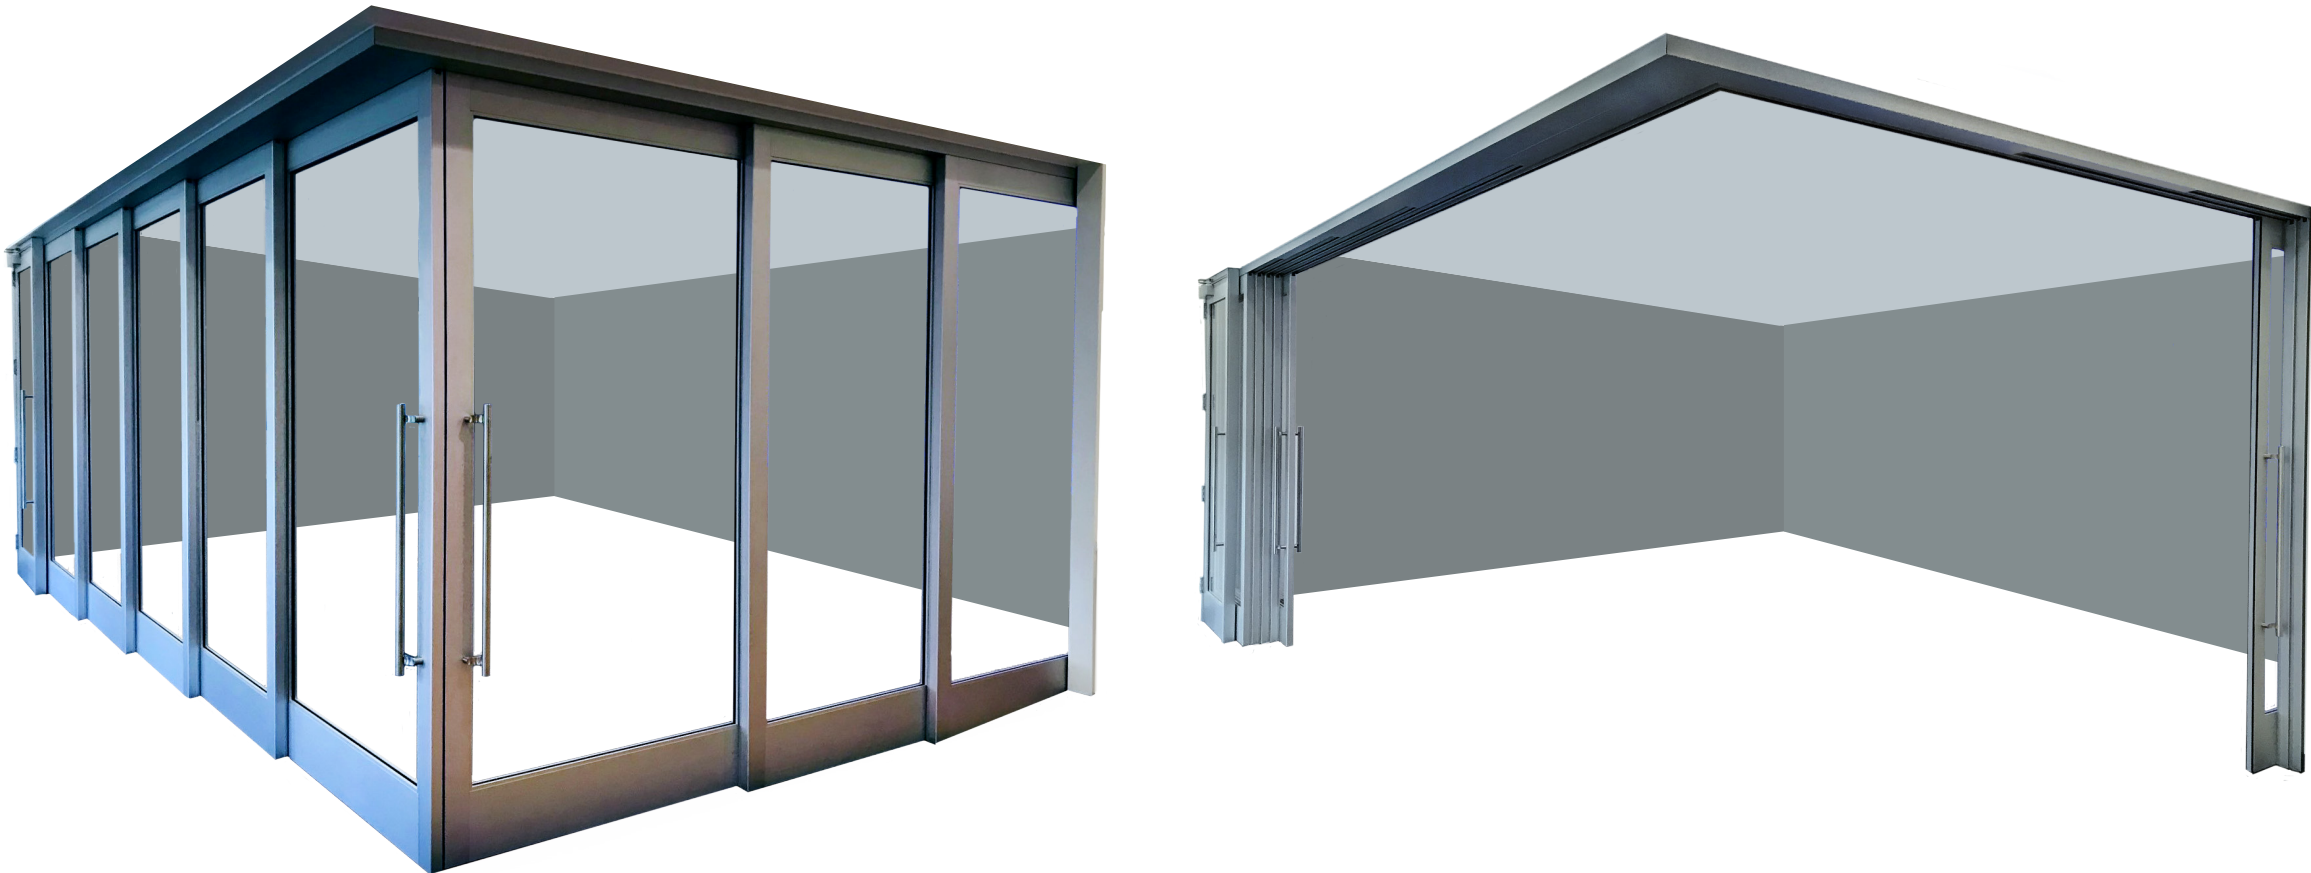

Consult us to find the perfect match on your interior doors.

# Operable Walls

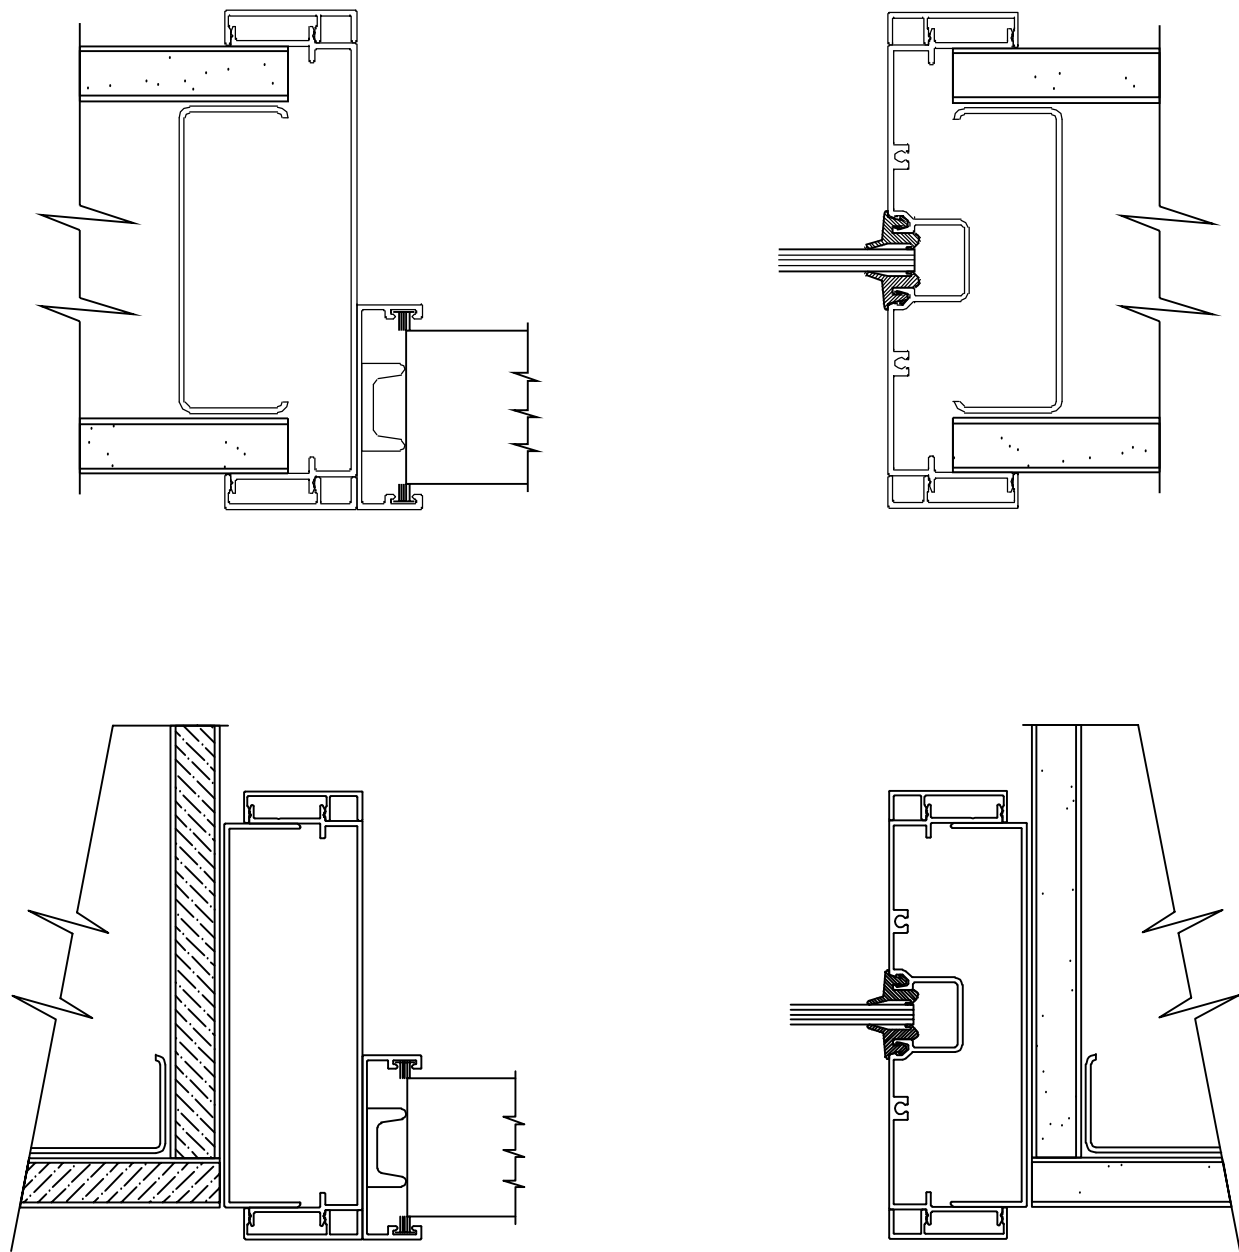

A value-engineering solution over expensive wall partitions. Posts can be reinforced with steel channel which allows for installation into a box beam header, integrated with a swing door to create a means of egress for high occupancy spaces.

# Frame Options

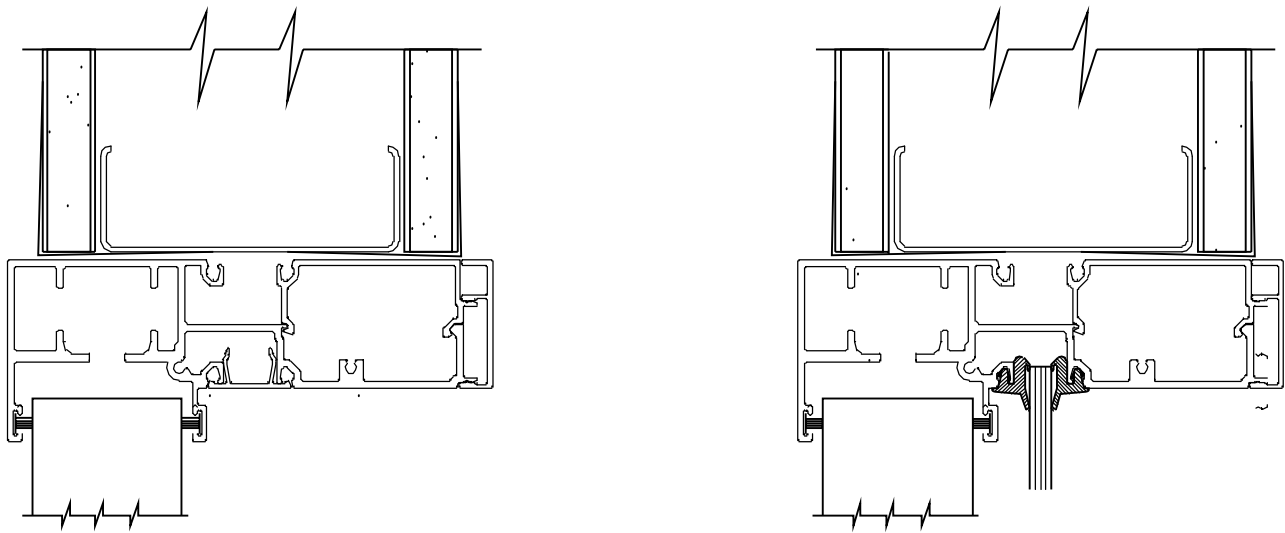

## Glazing/Wall Jamb

Available on VersaGlide systems up to 10' heights. Installation achieved by throating the wall or using wall starts.

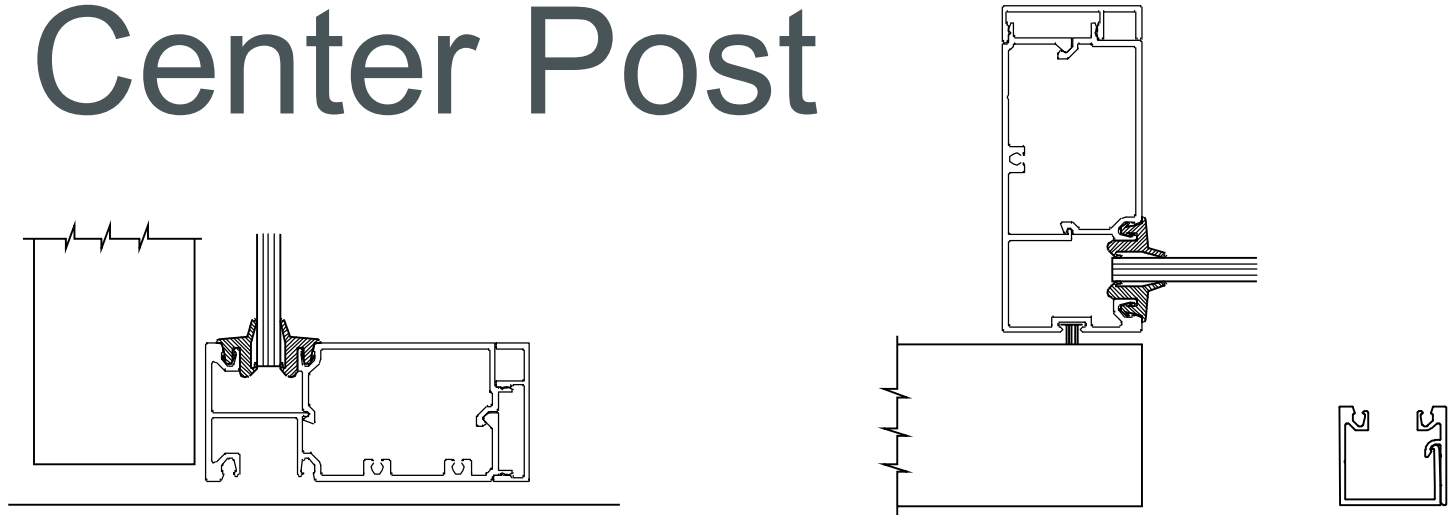

## Headers

Available in up to 21' lengths, the VersaGlide header extrusion is able to provide a uniquely clean aesthetic look by using custom track and pocket filler technology.

## Standard Sill, U-Channel & Center Post

# Tested & Perfected

## A Product created by Builders

### Space Saving

The VersaGlide system creates a spacious solution for every workplace environment.

### Card Reader Capabilities

A variety of electrified hardware implementations available.

### Hidden Floor Guide

No floor track to prevent potential tripping hazards.

### Securable

Secure your spaces with electrified locks, mortise locks, and more.

### Customizable

Our doors are crafted & tested by our team of experts. We are constantly improving our products to integrate into your vision.

### Soundproofing

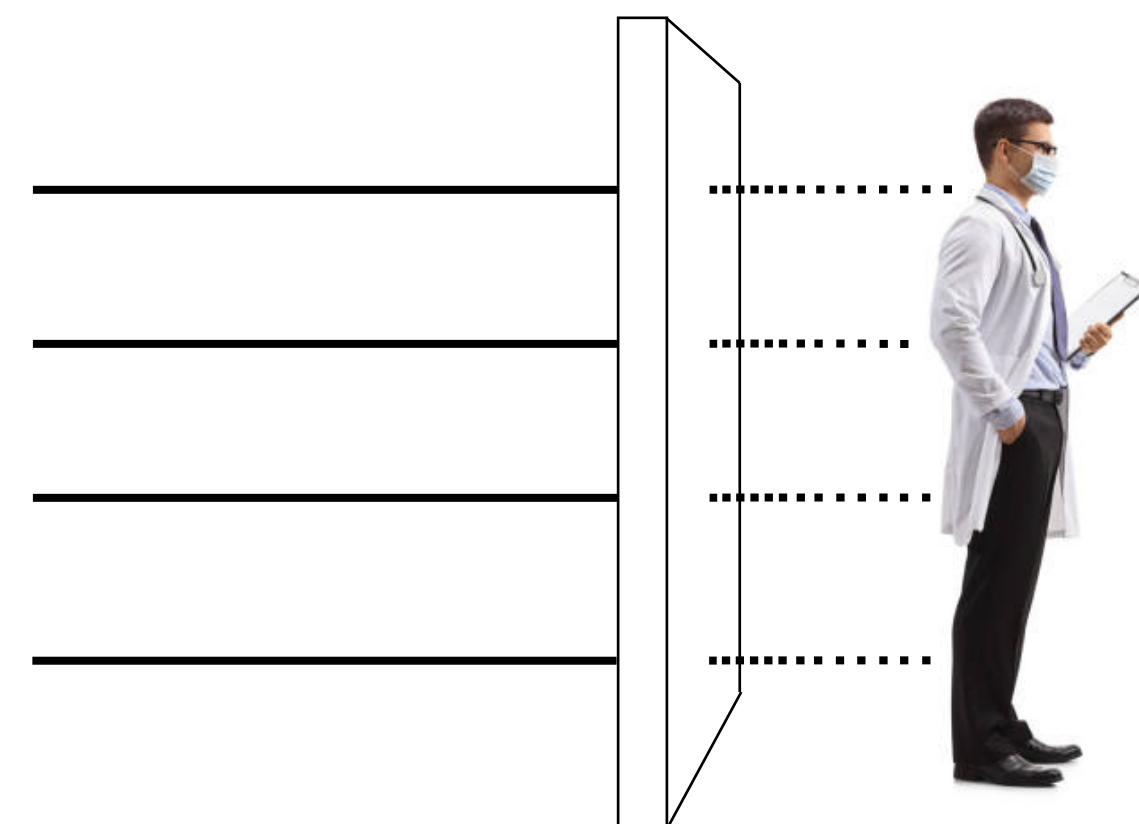

Up to an STC rating of 41. We continuously test and develop new products and designs to achieve higher Sound Transmission Class (STC) ratings.

## Speaker icon) Sound Transmission Class (STC) Capabilities

We enhance our doors and frames with various components, such as compressed Roxul, mass load vinyl, automatic door bottoms, and a multitude of silicone adhesive gasketing to achieve desired STC ratings.

### Glass Notes:

STC 37 = 7/16" Laminate  
STC 38 = 9/16" Laminate  
STC 39 = 11/16" Laminate
