VERSA GLIDE™

BY WALTERS & WOLF

VERSAGLIDE

VERSAGLIDE SYSTEM STANDARD FEATURES:

-  No unsightly floor track.
-  Environmentally friendly design.
-  Compliant with ADA Codes and Standards.
-  STC Availability
(Up to STC39 on standard units, STC41 on the BarnaGlide).
-  Soft-close and Soft-opening options for a consistent gliding movement.
-  Throats a 4-7/8" wall, using wall starts to install on applications with larger wall sizes.
-  Available in clear anodized, black anodized, and custom painted finishes.
-  Lifetime warranty for all non-movable parts, and 2 year warranty on all movable parts.

EXAMGLIDE

CUSTOM SLIDING DOOR SYSTEM

Our ExamGlide design allows for many different applications including patient rooms, exam rooms, and those difficult spaces without room for a sidelite.

- Allows for installations in narrower-than-standard openings using the same base components.
- Custom solutions for maneuvering structural components and limited space.
- Quick and intuitive assembly for efficient installation.
- Includes a perimeter at cased opening.
- STC38-STC41 ratings available.
- Soft-close and Soft-open options for a sleek, sophisticated feel.
- Customizable, innovative design.
- UL 1784 Smoke & Draft Certified.

With what began as a value-engineering alternative to more expensive moveable wall partitions, we now have a multitude of design options to choose from. Our operable walls are fully customizable. Lets work together to create the optimum build for your project.

OPERABLE WALLS

- Posts can be reinforced with steel channel which allows for installation into a box beam header.
- Our operable walls can be integrated with a swing door to create a temporary means of egress.

DOOR OPTIONS

ALUMINUM STOREFRONT

Can accomodate an endless selection of veneers and finishes.

FLUSH WOOD

WOOD VENEER FULL LITE

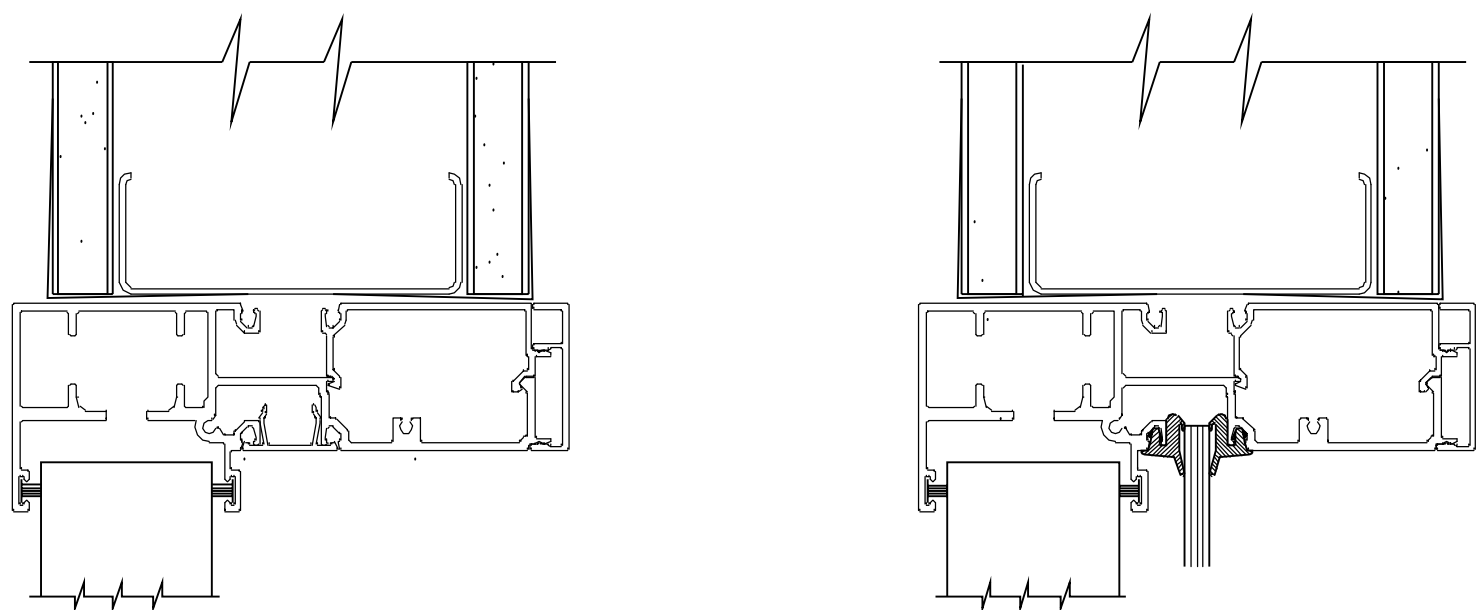

- Door stiles and rails available in narrow, medium or wide
- Full lite glass available in 1/4" thickness up to 9/16"

- Full lite and bottom rail is highly customizable to allow for varying sizes.
- Full lite glass available in 1/4" thickness up to 9/16"

HEADERS

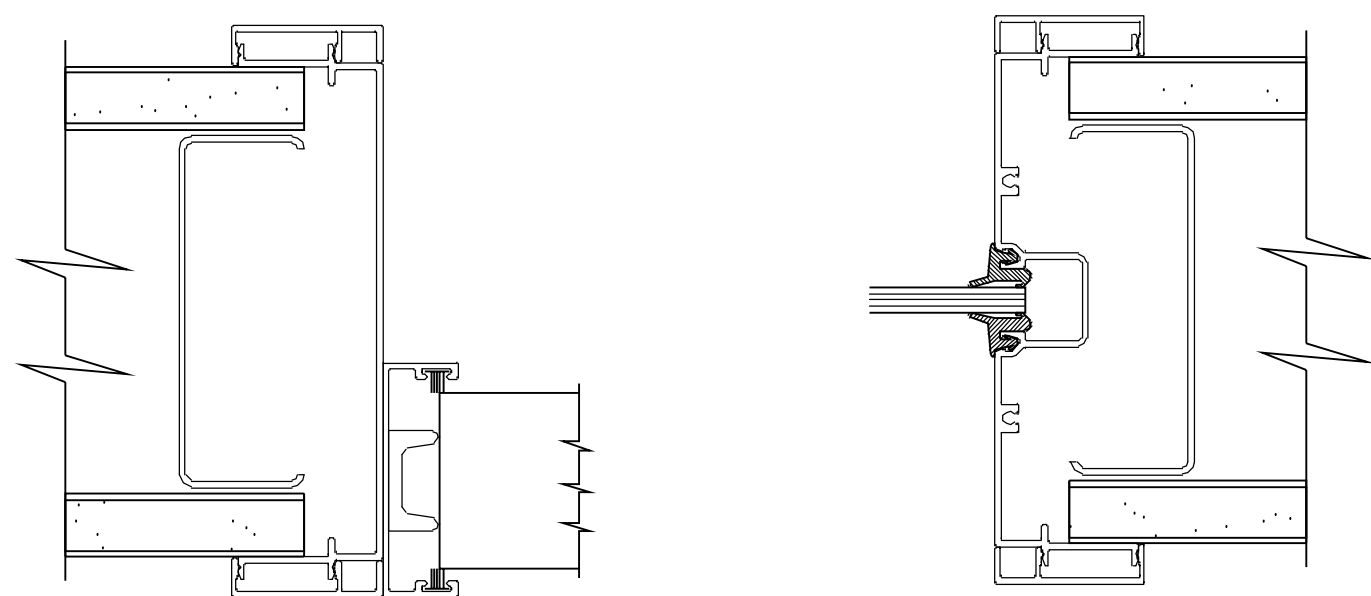

Available in up to 21' lengths, the VersaGlide header extrusion is able to provide a uniquely clean aesthetic by using custom track and pocket filler technology.

FRAME OPTIONS

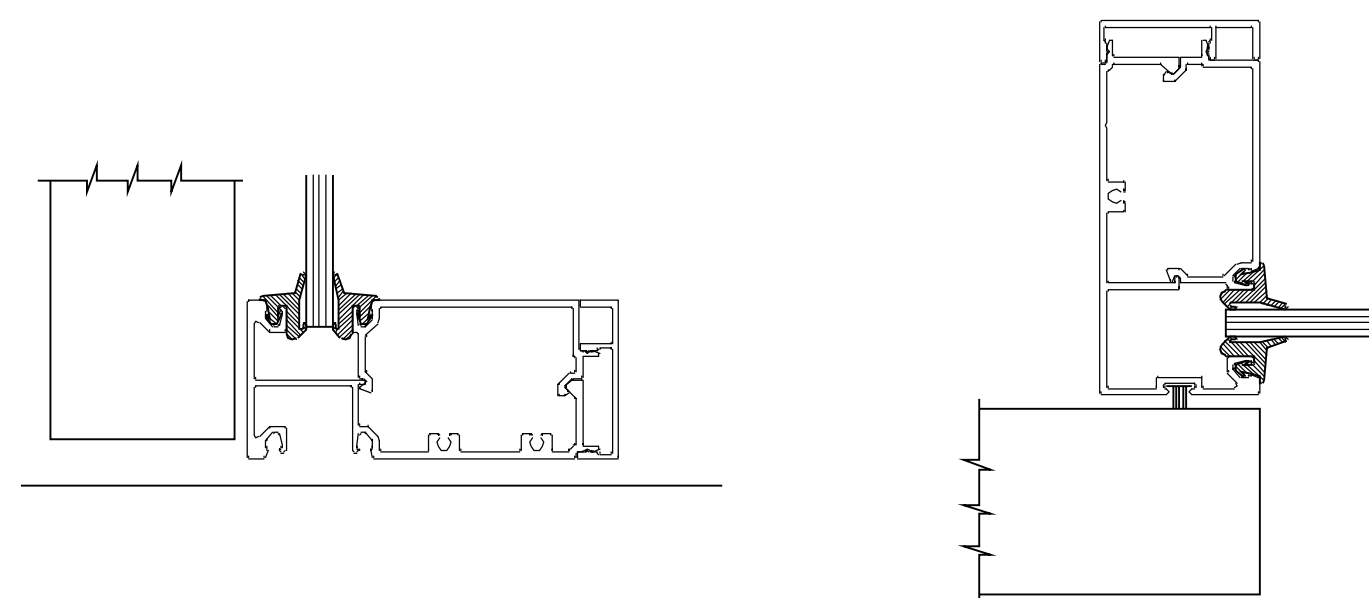

GLAZING/WALL JAMB

Glazing and wall jamps are available on the VersaGlide system up to ten foot heights. Installation can be achieved both by throating the wall or by using wall starts.

STANDARD SILL & CENTER POST

VersaGlide's standard sill and center post can be provided at 4" and are also available for customizing.

STC RATINGS

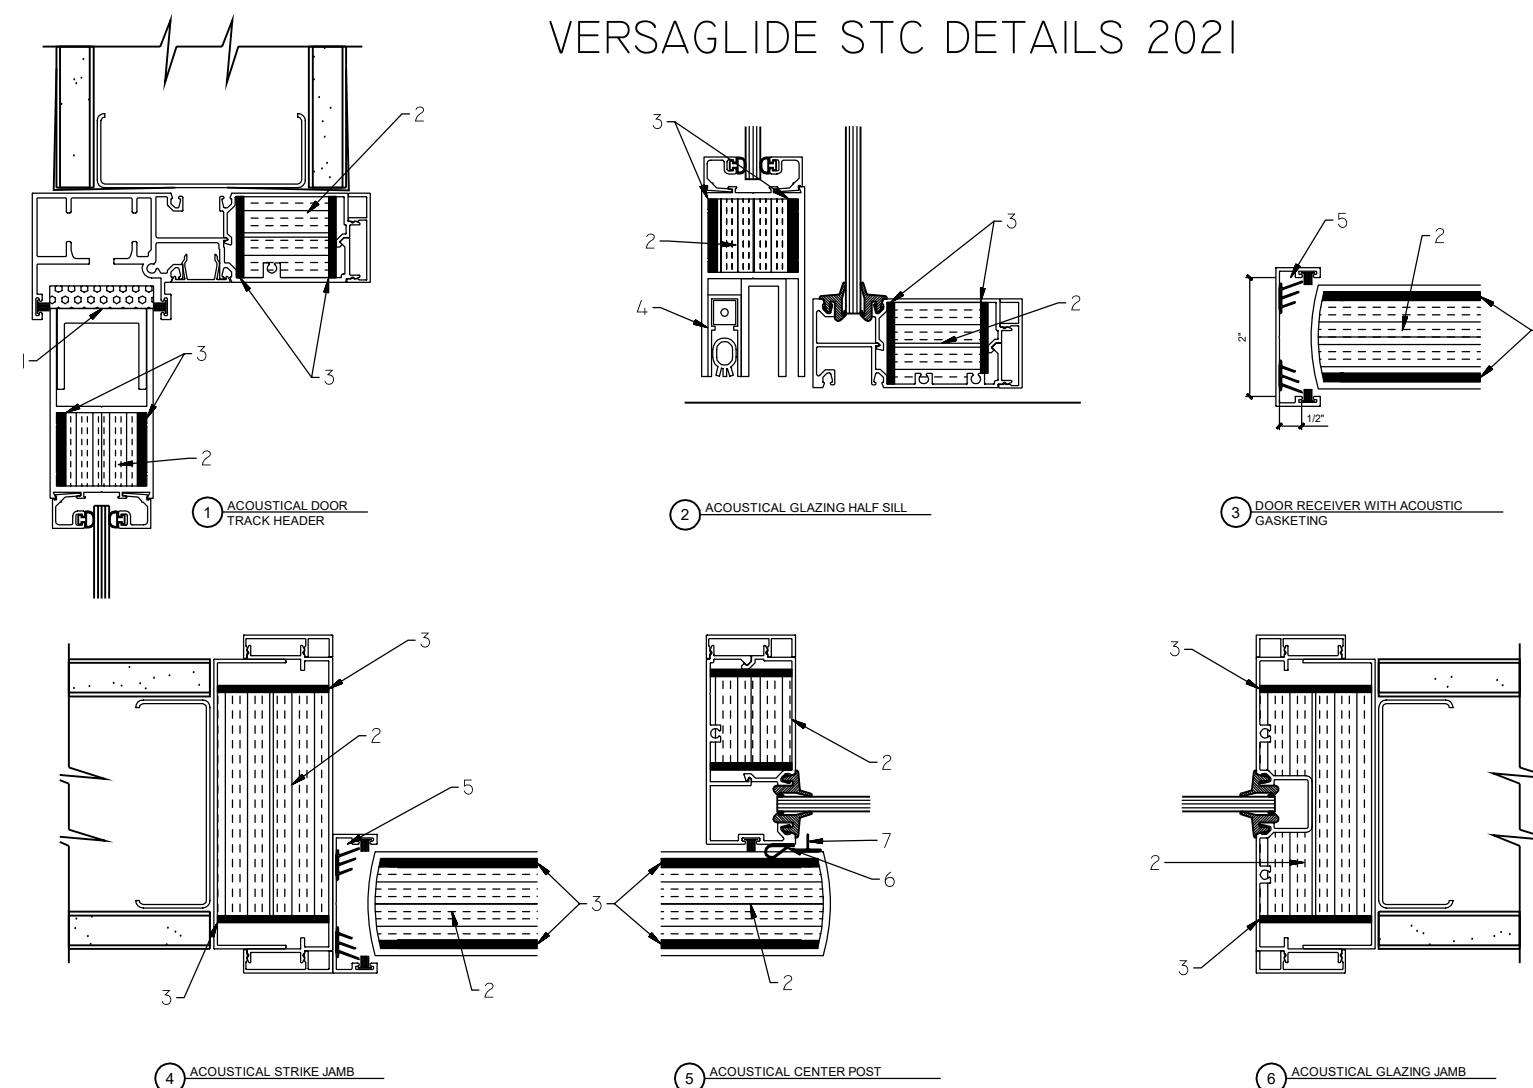

- 1- 13/4" x 3/8" Light Grey Substrate with Grey Tuftane Facing.
- 2 - 2" Thick Compressed Roxul
- 3 - 1/8" 2LBS Mass Loaded Vinyl
- 4 - NGP 780 VA Automatic Door Bottom
- 5 - Pemko S773B Adhesive Gasketing
- 6 - Pemko S88B Adhesive Gasketing
- 7 - Pemko S771B Adhesive Gasketing

Glass Notes:

- Versaglide
- STC 37 = 7/16" Laminate
- STC 38 = 9/16" Laminate
- STC 39 = 11/16" Laminate

Barnaglide (Door only)

- STC 37, 38, & 39 (see above)
- STC 40 = 13/16" Laminate
- STC 41 = 41 STC Flush Wood

ADA COMPLIANCE

SL9100 ADA Self-Latching Sliding/Pocket Door Locks

Latch bolt held back and released by pressing of a button or by sliding door closed against jamb. The Door is self latching, whether the latch is projected or retracted.

When door hits the frame, the latch projects and latches. Latch bolt functions like an edge pull when projected. Deadbolt available for locking/extra security (see function list).

Single action egress allows for unlocking and sliding the door open in one operation. For use with Accurate's SLFT flush pulls (for true pocket door applications) or Accurate's levers. Lock can be used with other manufacturers' sectional levers that can be installed vertically.
 -2 1/2" or 2 3/4" backset standard, other backsets available as a special order.
 -Available with 1" front (for 1 3/8" thick doors, specify SL9100xx).

HARDWARE OPTIONS

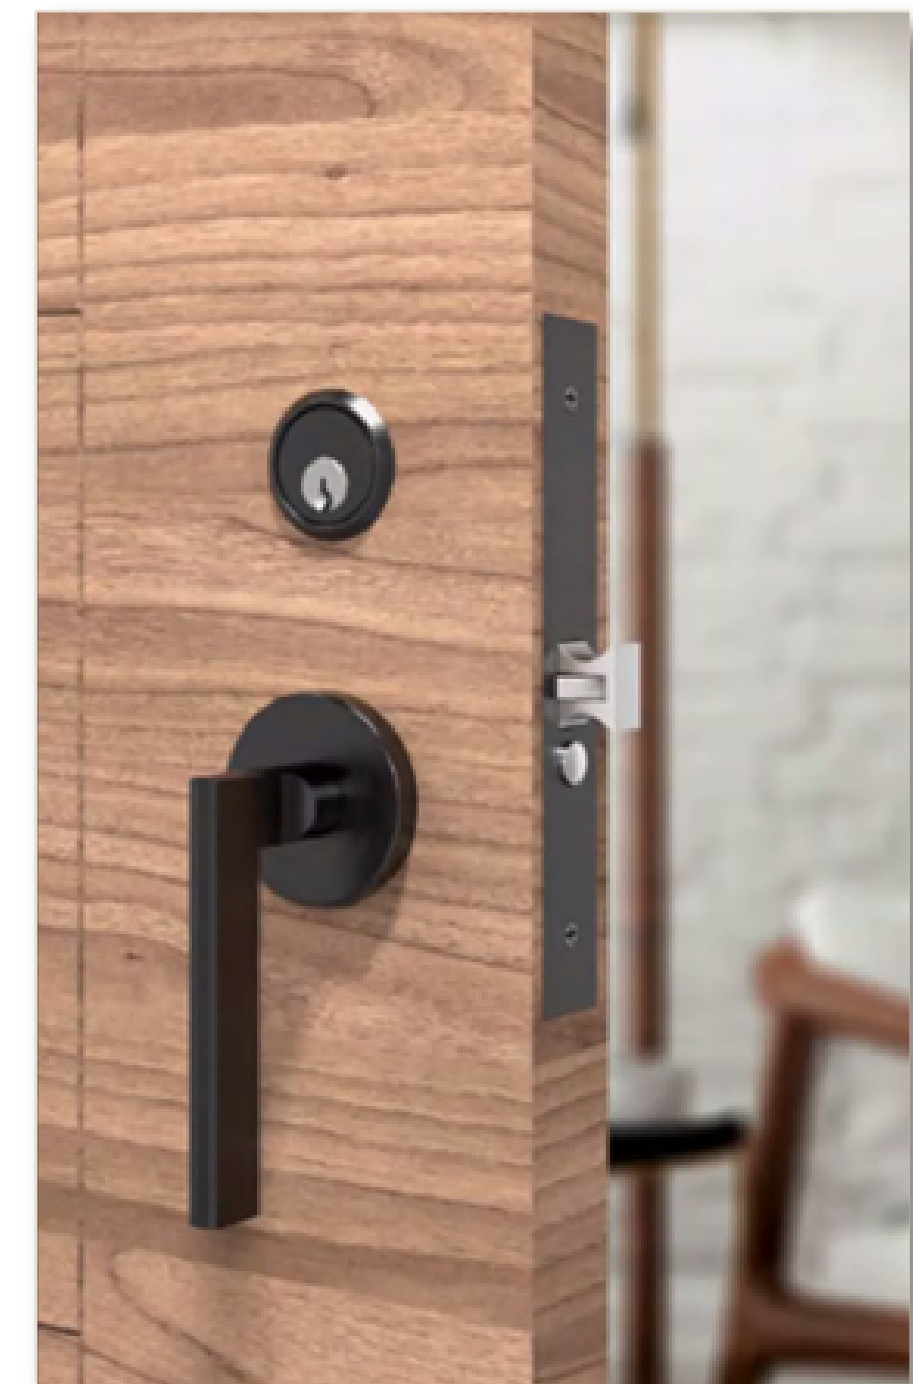

The Rockwood door pull is just one of many options available for the VersaGlide system.

Pulls can be provided with custom heights at various diameters.

Rockwood RM3301 Ladder Pull

The Accurate lock provides high security. It can be used on wide stile or flush doors with any pull and is fashioned with an ADA compliant thumb turn.

Adams Rite locks can be combined with any pull and is fashioned with an ADA compliant thumb turn. Available for installation on our medium, wide stile and flush doors.

Walters & Wolf Interiors is a team with 40+ years and over 2000 years of combined Industry experience. Our unwavering commitment to quality, continuous improvement, and exceeding customer expectations is demonstrated in our work and backed by a lifetime warranty on our product.

Our unique ability to complete on all aspects of a project's life cycle - from design & engineering, through fabrication, installation, and in-house inspection allows for superior quality and a level of commitment that is unparalleled in the Industry.

We are a dedicated team that is committed to you for the duration of your project **from concept to completion.**

Just some of our clients who trust the excellence of Walters & Wolf VersaGlide system.
